INTRODUCTION

Too Many Business Models, Too Much Noise

Let's be real

Today, there are **hundreds** of online business models:

- Affiliate marketing
- Print-on-demand
- Amazon FBA
- Coaching
- Digital products
- And more...

The problem?

When you're new, it's **overwhelming**. Everyone says their way is the best. You don't know where to start, and if you pick wrong, you waste time and money.

So let me save you the headache.

The Solution: Local Dropshipping

While most models require:

❌ Large budgets

❌ Buying inventory

❌ Complex systems

Local Dropshipping is:

✅ Low Capital → Start small

✅ Low Risk → No stock to buy

✅ Fast Launch → Weeks, not months

✅ Scalable → Find a winner → Scale ads → Profit

👉 It's the best starting point if you're in Lebanon.

Later, once you've gained experience and tested products, you can evolve into Branded Dropshipping for long-term growth.

How Local Dropshipping Works (In 5 Steps)

1. You find a product
2. You partner with a local supplier
3. You set up a simple website
4. You run ads → Customers buy
5. The supplier delivers directly

You don’t touch stock. You only touch profits 💸

Chapters We’ll Cover

1. Product Hunting – How to Find a Winner
2. Partnering With a Local Supplier
3. Building Your Website
4. Running Ads That Sell
5. Fulfillment & Profit Collection

CHAPTER 1

Product Hunting – How to Find a Winner

Before ads, suppliers, or websites → You need a winning product.

Criteria for Winners:

- Solves a problem fast
- Easy to use
- Lightweight (cheaper delivery)
- High profit margin
- “Wow” factor (viral potential)

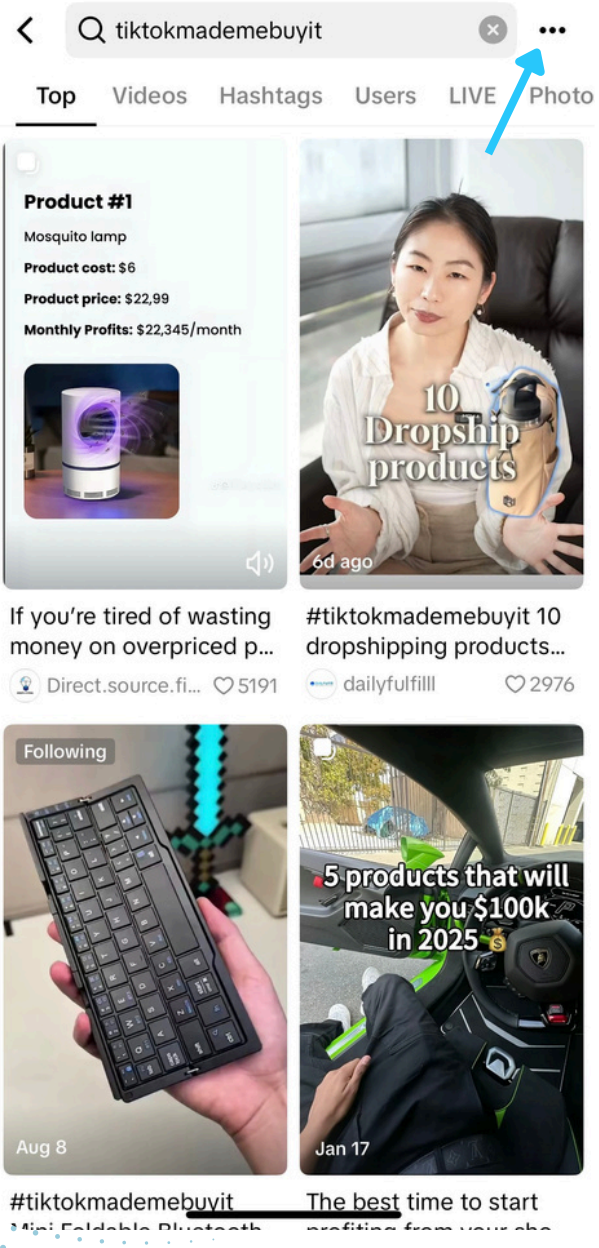

Research Hack #1

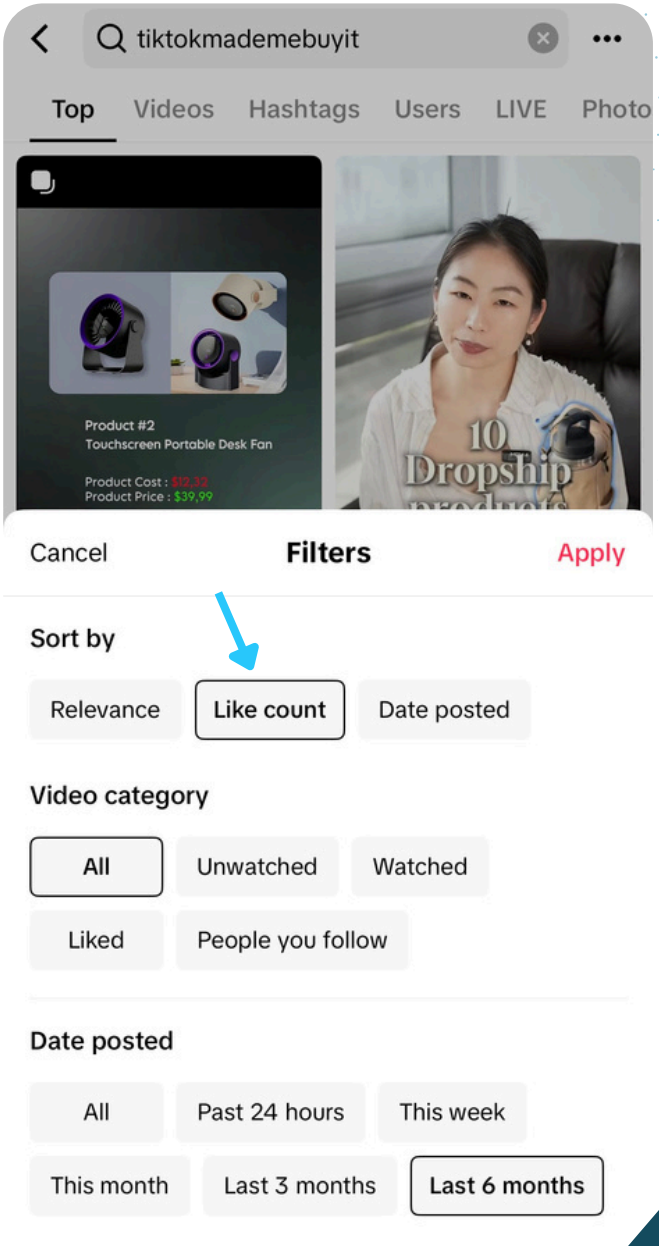

- TikTok hashtags:
  - #tiktokmademebuyit
  - #amazonfinds
- Filter by this week.

Step 1: Search & Filter

- Open TikTok
- Search: **#tiktokmademebuyit**
- Use filters: Likes, date posted, relevance
- Goal: Spot high-engagement product videos

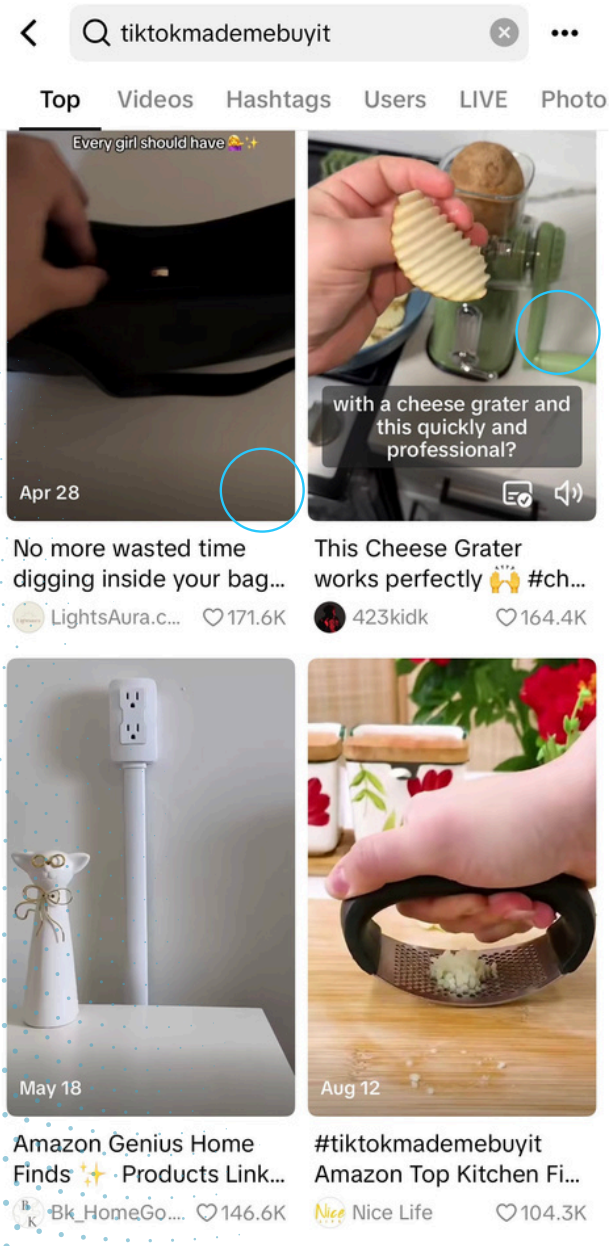

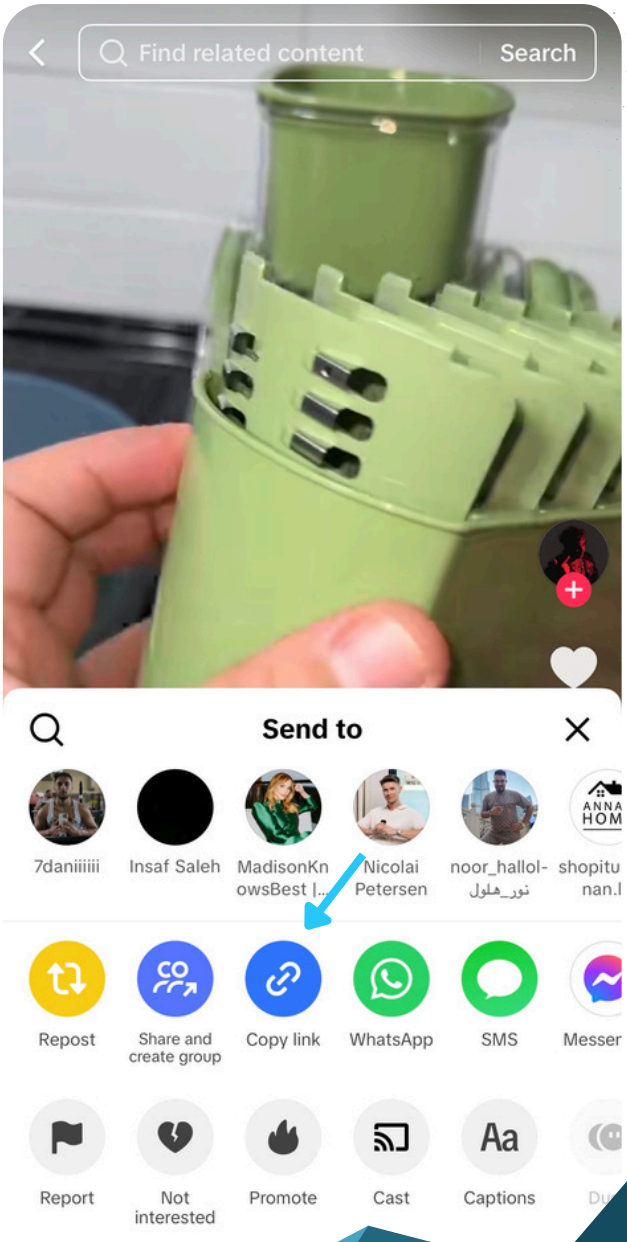

Step 2: Browse & Save

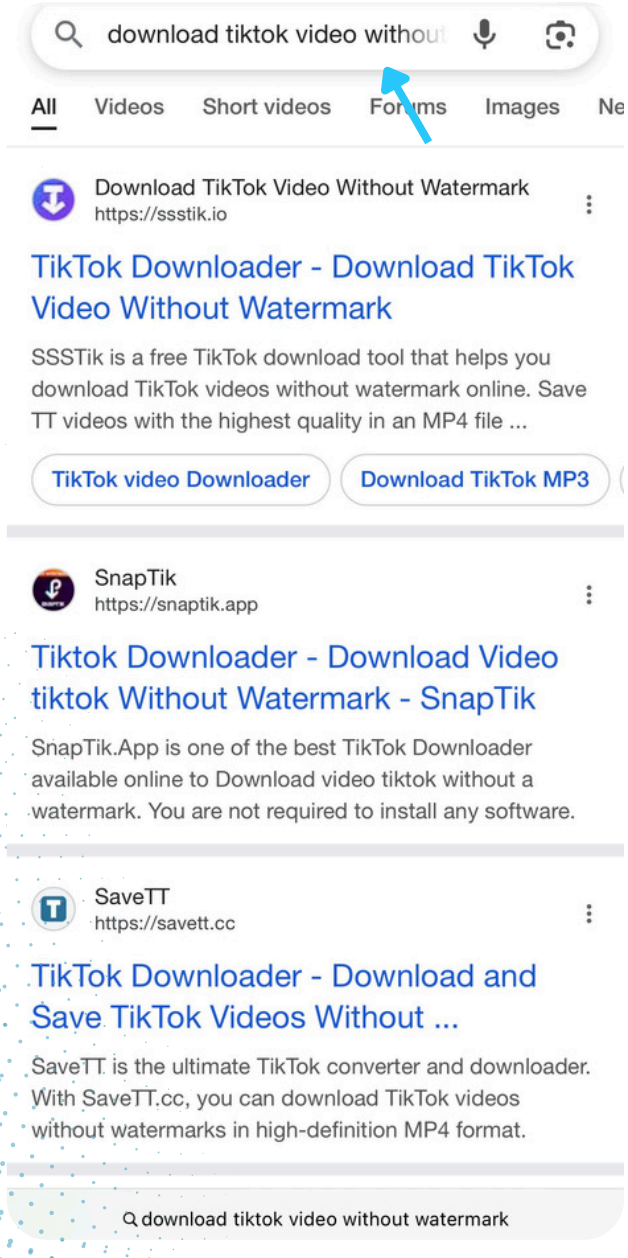

- Click on promising videos
- Watch for product demos or problem-solving angles
- Copy the link of videos you want to test or save

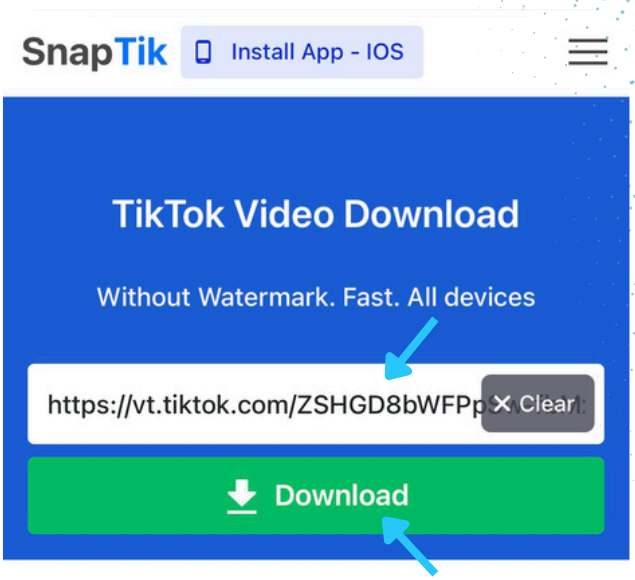

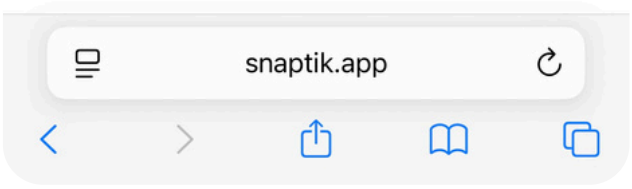

Follow these steps

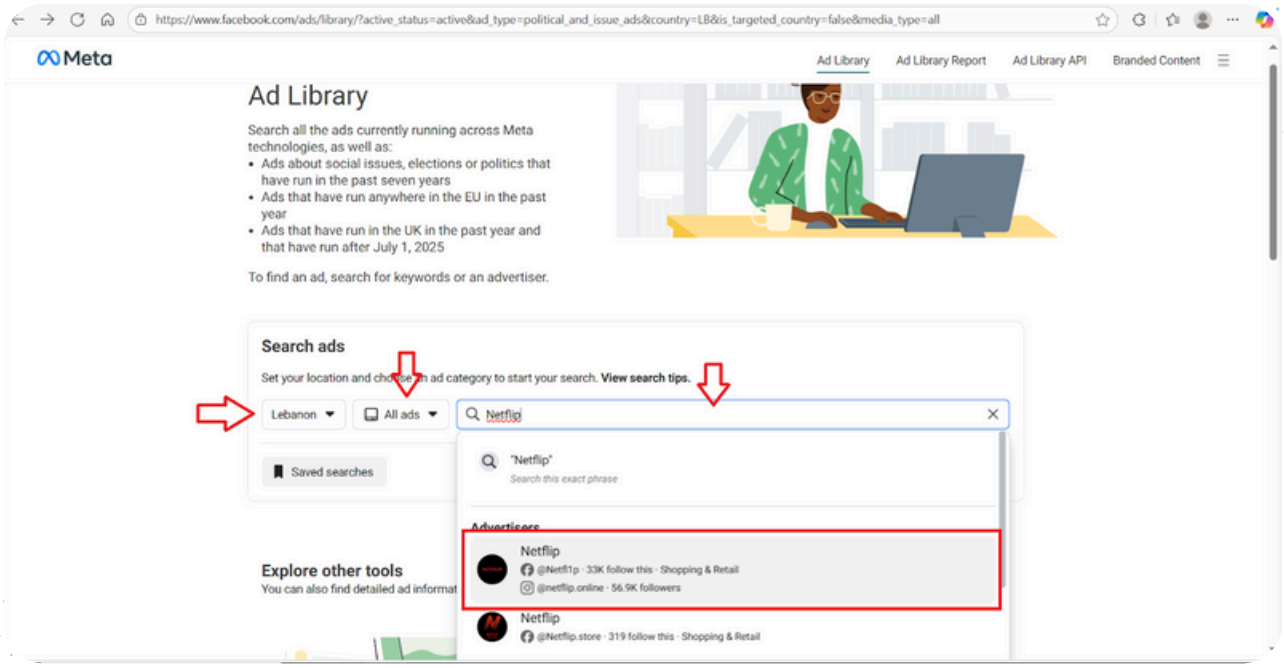

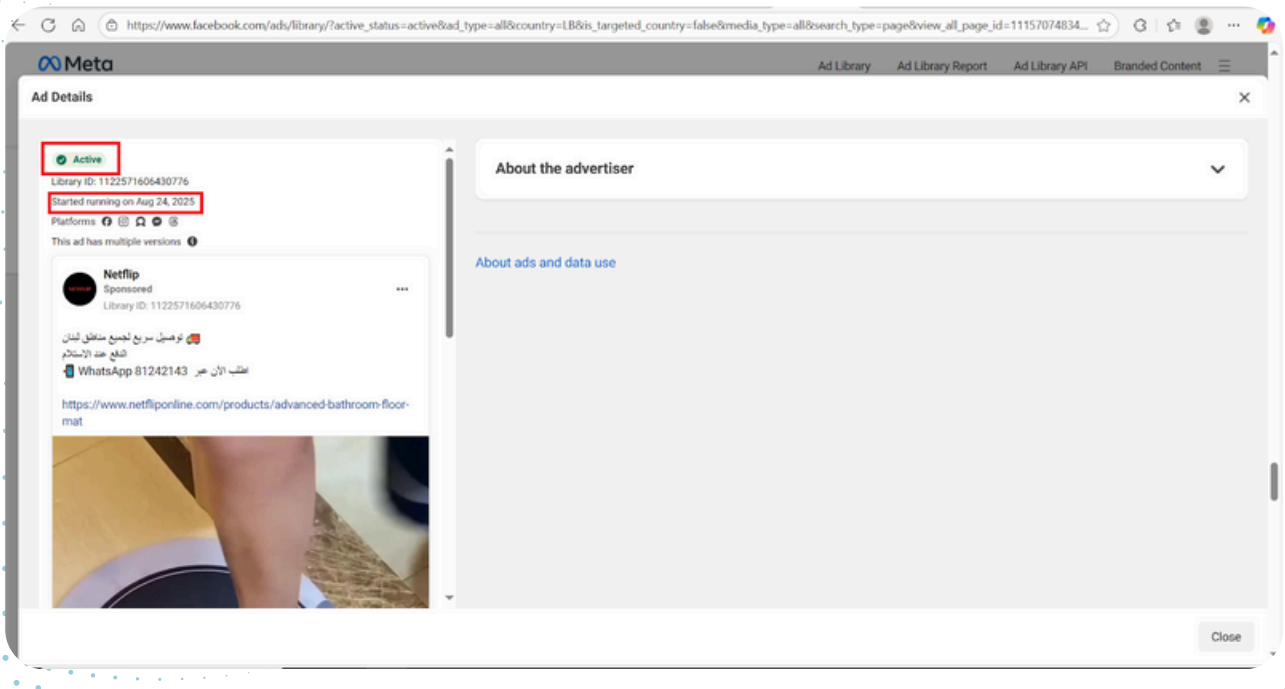

Research Hack #2

Spy Smarter: Use Meta Ads Library to Track Active Campaign

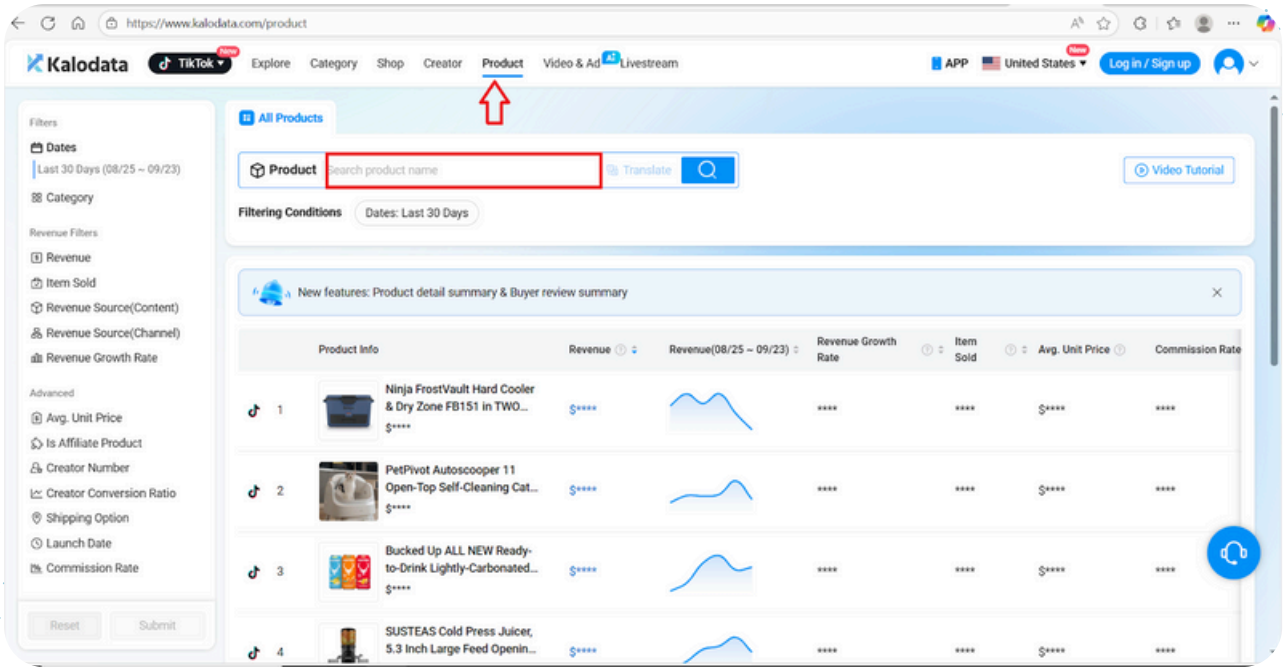

Research Hack #3

Trend Smarter: Use Kalodata to Uncover Winning Products

Your own problems → Products that solve daily issues around you.

Goal

Don’t overthink. Pick 1 product fast. Test > Thinking

CHAPTER 2

Partnering With a Local Supplier

Where to find suppliers in Lebanon:

- Droparabia
- Local wholesalers in Lebanon
- Instagram shops already importing

How to approach

- Message simple: “I want to sell your products online. Can you handle delivery?”
- Negotiate COD payout %
- Ask about delivery time, quality check, packaging

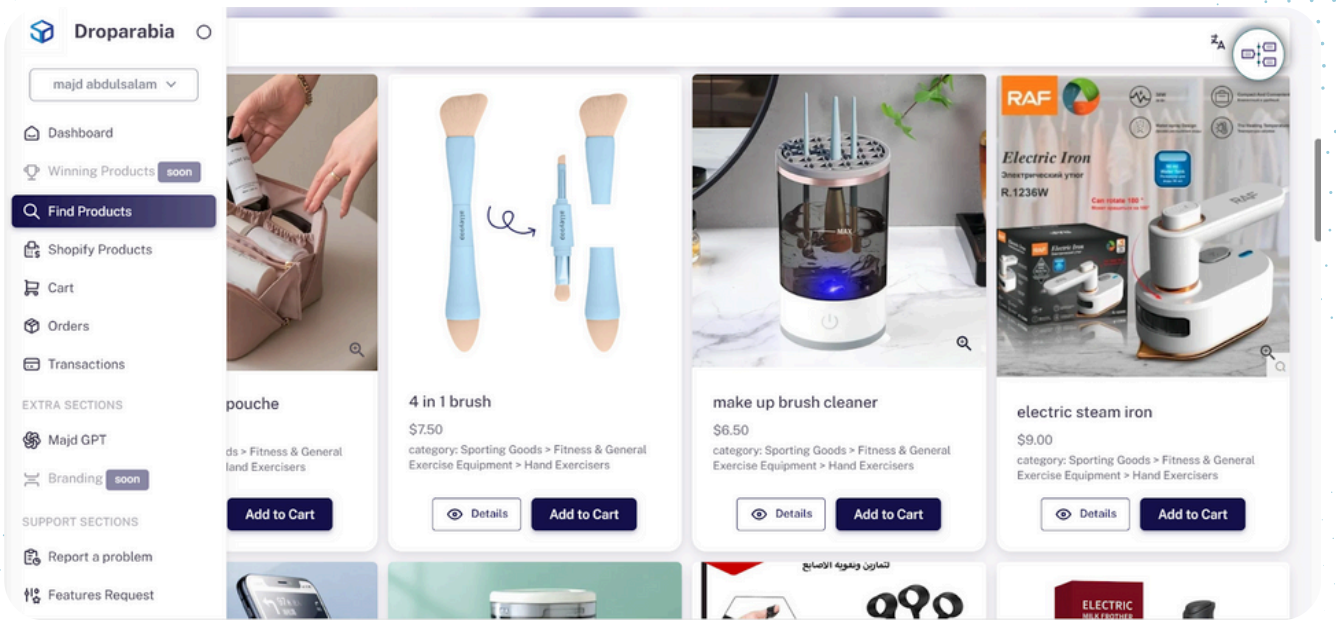

Goal

Lock in a supplier you can trust

Automate Your Dropshipping with DropArabia

Droparabia interface:

DropArabia is packed with winning products ready for the Lebanese market, and every supplier is local.

That means:

- Faster delivery
- No customs headaches
- Smoother customer experience

What You'll Unlock

- Access to high-converting, locally sourced products
  - No need to import, everything ships from Lebanon
- Step-by-step Shopify integration guide
  - Connect your store to DropArabia in minutes.
- Automated order fulfillment
  - When a customer places an order, the local supplier gets notified instantly and ships the product, no manual input needed.
- Real-time syncing
  - Inventory, pricing, and order status update automatically
- Zero-touch logistics
  - You sell, DropArabia delivers. You never have to pack or ship

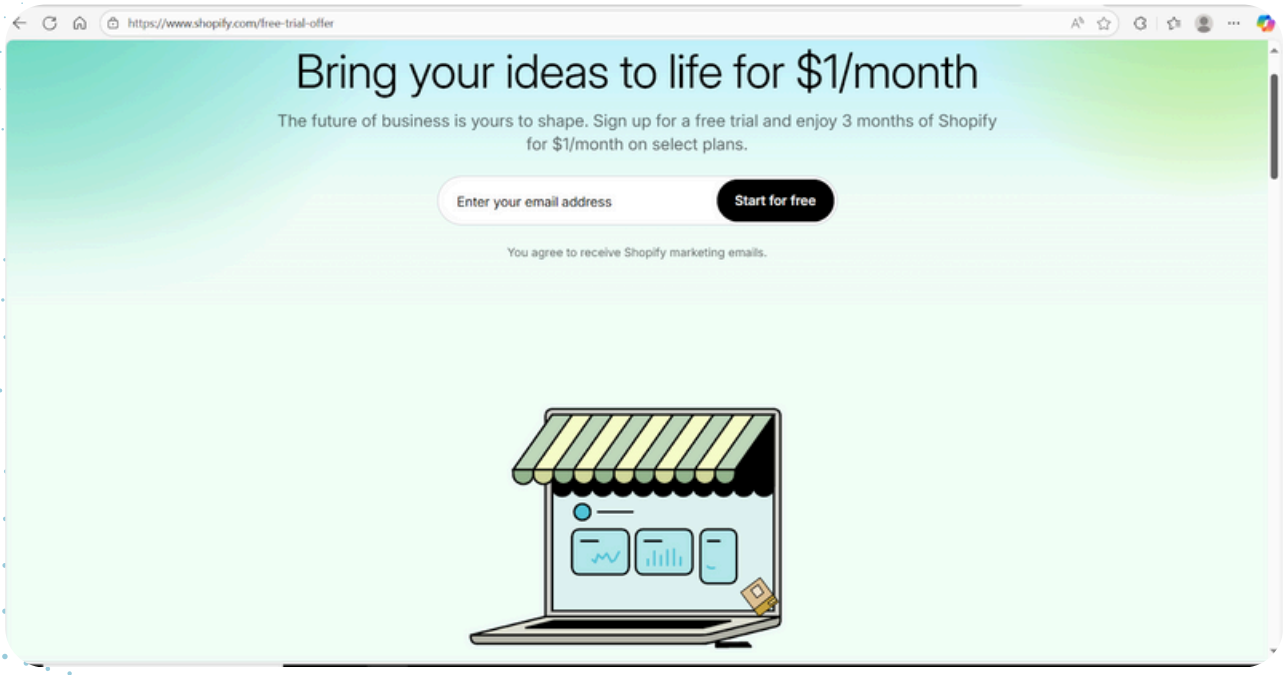

CHAPTER 3

Building Your Website

Options

- Hire a budget-friendly developer
  - Outsource setup if you prefer hands-off
- DIY with Shopify (recommended option)
  - No coding needed, just drag, drop, and launch

Why Shopify Is Your Smartest Choice

- Easiest platform to launch your store No coding, no complications, just drag, drop, and sell.
- Seamless integration with DropArabia & other tools Everything connects smoothly now and later.
- Built-in analytics to track performance Understand what's working and optimize your strategy.
- Scalable for future growth Whether you're starting small or going big, Shopify grows with you.
- Supports automation across fulfillment & marketing Save time, reduce errors, and focus on scaling.

FREE TUTORIAL

Brand Name & Logo Setup

Your brand name and logo are the first impression—so keep them simple, Arabic-friendly, and easy to remember. Here's how to create a strong identity without overcomplicating the process

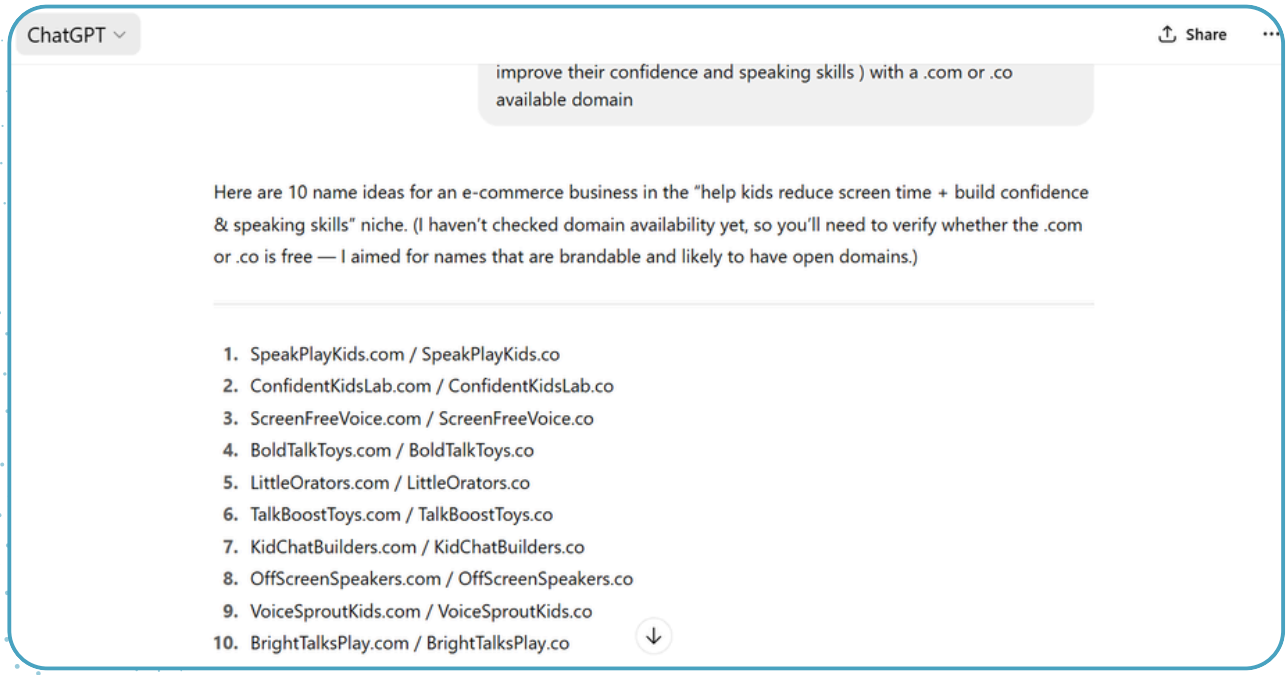

Branding Guidelines

- Choose a name with 1–2 words max Examples: Sleep Band, Fashion Nova, Kylie Cosmetics
- Make sure it's brandable and easy to pronounce in Arabic Avoid long or complex words.
- Use ChatGPT to generate name ideas Try this prompt:
- Refine with a second prompt
- Repeat until you find the perfect name Check domain availability as you go.

First Prompt

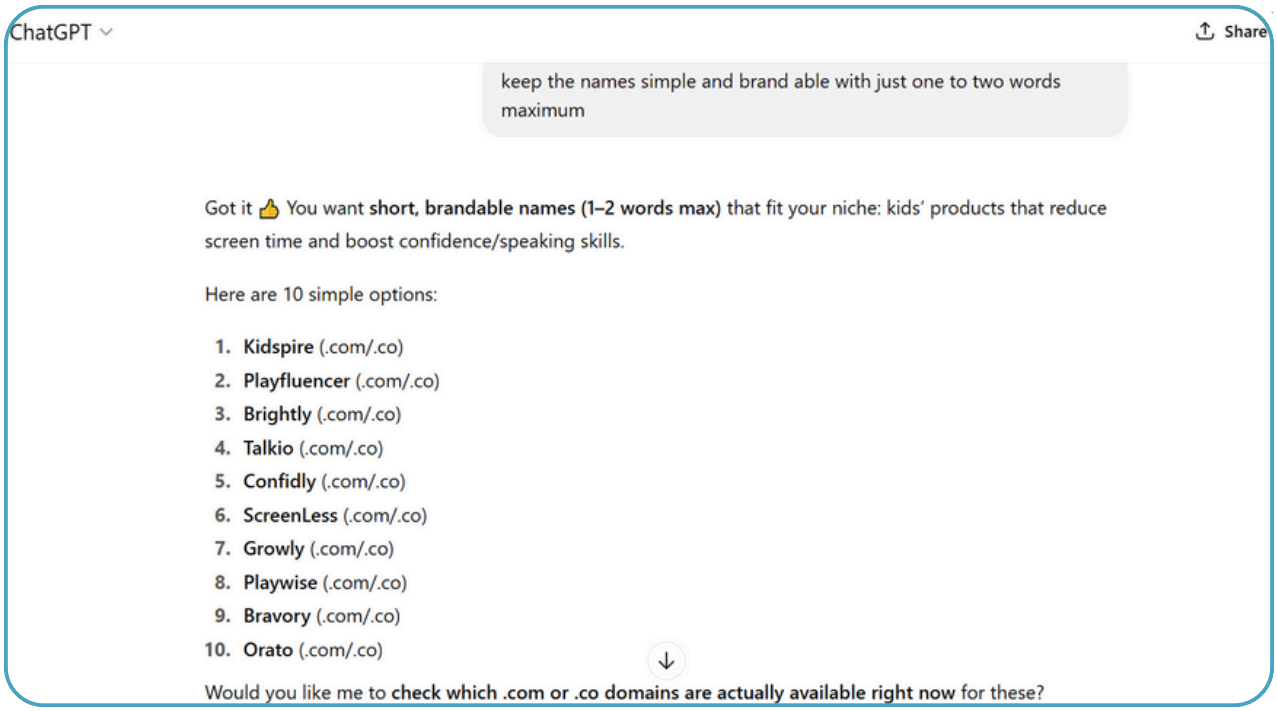

Create 10 names for an ecommerce business focused on selling (your product niche ex: children's toys) such as products that help them with (benefit ex: decreasing their screen time period and having them improve their confidence and speaking skills) with a .com or .co available domain

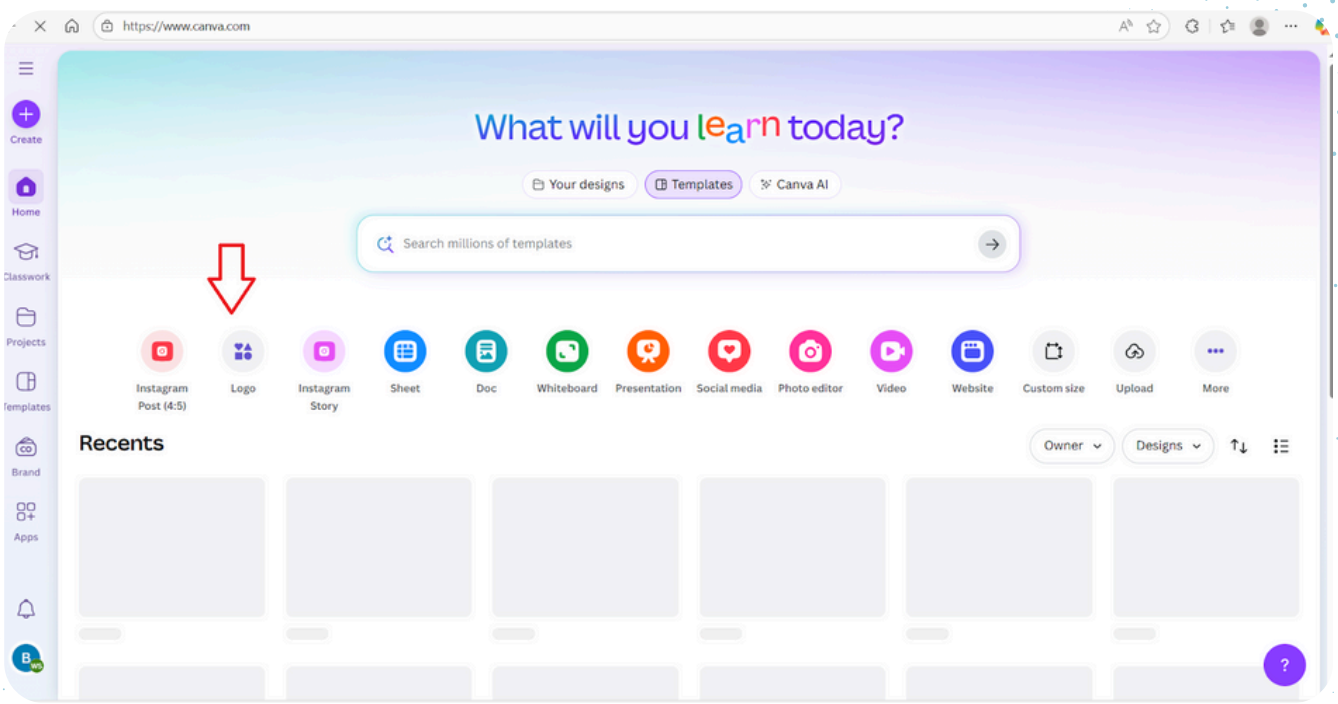

Second Prompt

keep the names simple and brand able with just one to two words maximum

Your Brand Starts Here, Do Your Logo On Canva

Product Page Checklist to Boost Conversions

Your product page is where customers decide to buy, so every detail must build trust, reduce friction, and drive action. Use this checklist to optimize your layout and get your store ready to accept orders in days, not weeks.

Must-Have Elements

- Use short hero videos or GIFs to show the product in action.
- Add benefits in 3 bullet points with emojis for faster scanning.
- Include before & after visuals where relevant.
- Place trust icons under the Buy button: Fast Delivery, COD, High Quality.
- Add FAQ accordion directly on the product page (delivery, returns, COD).
- Highlight offer prices with bold colors and scratch out old prices.
- Include urgency triggers: “Only X left!” or “Limited quantities.”
- Ensure mobile-first design with a sticky Add-to-Cart button.
- Connect Instagram/Facebook Pixel for retargeting.
- Optional: add a tracking plugin / trust badge to boost credibility.
- Test checkout flow yourself before launch.
- COD option clearly shown

CHAPTER 4

Running Ads That Sell

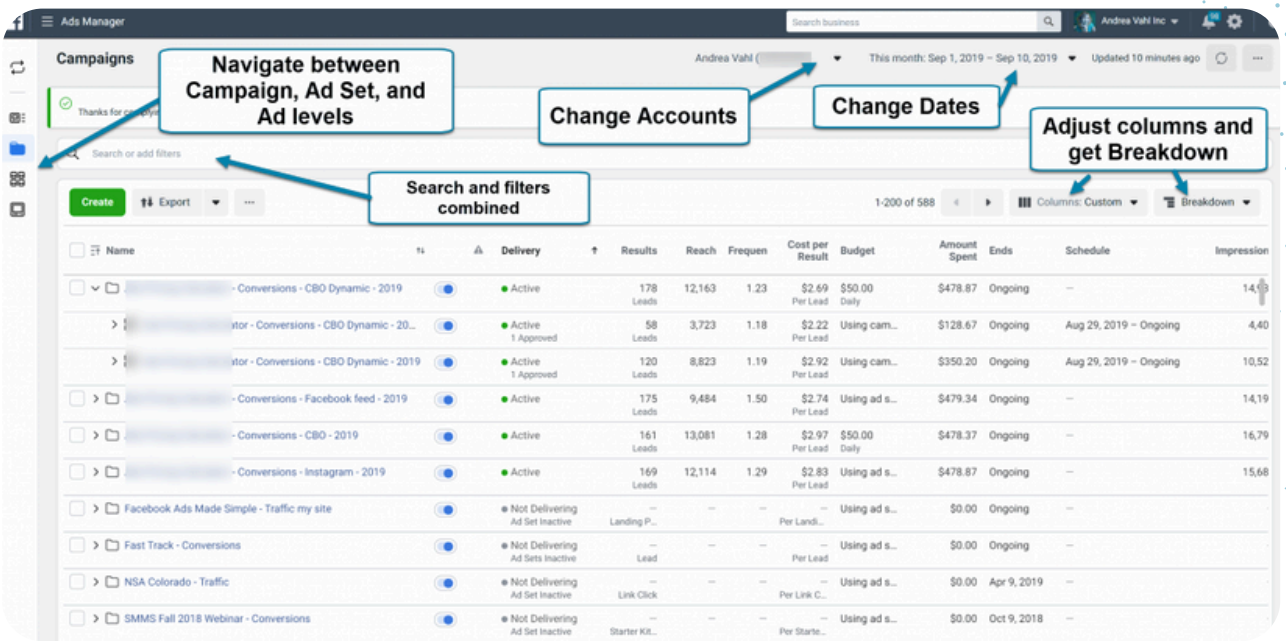

Ads = Your Growth Engine

Platforms to Focus on in Lebanon

- Facebook & Instagram Ads Still the most effective for Cash on Delivery (COD) campaigns.
- Use Facebook Ads Manager, not Boost! Full control over targeting, budget, and creative.
- TikTok Ads Rising fast—great for viral reach and younger audiences.

Facebook Ads Manager Interface

Budgeting Rule

- Ad Testing & Scaling Tips:
- Start small ($10–$20/day) → test multiple creatives → scale winners.
- Monitor CTR, CPC, purchases → kill low performers fast.
- Always link Meta Pixel / UTM tags to track ad performance per product.

Ad Creative Secrets: The Winning Formula

- Hook: Grab attention with a strong promise.
- Usage Instructions: Show how and when to use the product.
- Benefits: Use 3 bullets + emojis for visual appeal.
- Proof & Credibility: Include customer base, reviews, or testing info.
- Offer & Urgency: Highlight limited quantities or deadlines with a CTA.
- Use trending sounds and viral formats.
- Use UGC-style videos (15–30s) of real people using the product.
- Problem → Solution → Result format works best.
- Include social proof/comparisons: “Others charge $50, ours is $19.90.”

Goal

Get your first 10–20 orders

CONCLUSION

From $100 → $1000 and Beyond

This journey starts simple. Don't overcomplicate it.

Mindset to Win

- Start small, learn fast
  - Test, tweak, repeat.
- One winning product is enough
  - That's all it takes to unlock cash flow.
- Focus on your first $100
  - Then scale to $1000 and beyond.
- Once you're consistent, upgrade to:
  - Branded dropshipping
  - Full e-commerce brand

Action Step

- Don't just read this.
- Pick a product today.
- Message a supplier.
- Launch a test ad.

That's how you win.

💳 Proof of Progress

Just wanted to share my Wish Money Visa balance after recent orders 🚀 Every small step adds up, and seeing results like this keeps me motivated to push further.
This is the result of consistency, testing products, and not giving up even when some products failed.
👉 Keep going, stay patient, and the results will show!

💡 Another Way to Profit from What We Learn

It's not only about selling our own products—we can also use what we learn in running ads (Meta Ads Manager) to help other businesses.
For example, I made an ad for a business:

- Ad spend: $19
- Sales: 7 orders at $29 each = $203 revenue
- That means a profit margin of around 34%
- And a return on ad spend (ROAS) of about 1068% 📈

👉 This shows that the skills we build in ads can create opportunities not only for us, but also for other businesses who need marketing help.
